Chapel Hill and the surrounding towns are rich with history, cultural opportunities, art, sports, outdoor activities, shopping, restaurants, and much more for you to enjoy. From the restaurants on Franklin Street to the open air farmer's markets in Carrboro, there are plenty of ways to expand your campus community out into the local community!

# **ALERT CAROLINA**

# WITHIN THE ALERT CAROLINA SYSTEM'S FOUR TYPES OF NOTIFICATIONS:

- Emergency Warning: issued if there is a significant emergency or immediate threat to the health or safety of people on campus. The emergency sirens will sound to alert people that they need to act now, accompanied by a text message, social media message, and email.
- Crime Alert: issued to notify the campus community of any Clery Act crime as soon as the information is available so people can protect themselves and/or their property from similar crimes. This type of warning is intended to tell people to be cautious, not to take immediate action, so communications may include a text message or email, but the emergency sirens will not sound.
- Adverse Condition: issued when circumstances exist that do not represent an immediate threat to health or safety, yet action may enable people to protect themselves and/or their property. These situations include adverse weather events such as approaching snowstorms or hurricanes, major campus utility outages, or other situations that would require a change in the University's normal operating status.
- Informational Message: issued when a situation is not an emergency or nor does it pose an immediate threat to the campus community but is of significant interest to campus. This includes tornado watches and severe thunderstorm warnings. The University will send a campus-wide email message.

# **SYLLABUS TIPS**

On your first day of classes (FDOC), you will likely receive your syllabi from your faculty. Each course provides you with a syllabus, your roadmap, for the entire semester. Managing syllabi effectively is crucial for success in college coursework. Here are some tips to help you make sense of your syllabi and manage the information efficiently:

# REVIEW EACH SYLLABUS DOCUMENT THOROUGHLY

Start by thoroughly reviewing each syllabus for all your courses. Pay attention to the course objectives, required textbooks and readings, grading criteria, assignments, deadlines/due dates, and important policies such as attendance, late submissions, and participation requirements.

#### CREATE A MASTER CALENDAR

Consolidate all important dates from each syllabus onto a master calendar. Include deadlines for assignments, exams, quizzes, and any other significant events related to your courses. This will give you a clear overview of your comprehensive semester schedule. You could use a pen and paper calendar, an Excel Spreadsheet, or your Outlook Calendar (the last two provided to you in Office365).

## **BREAK DOWN ASSIGNMENTS**

Break down major assignments and projects into smaller tasks with their own deadlines. This will help you manage your time more effectively and avoid feeling overwhelmed by large tasks. For example, if you have an 8-page essay due in December, you might create a goal to write 2 pages per month, each month of the Fall semester.

- The Writing & Learning Center has a Class Assignment Tracker template that can help you do this. Visit go.unc.edu/ClassAssignmentTracker.
- Or scan the QR Code

#### **SET REMINDERS:**

Set up reminders for important deadlines using digital tools such as calendar apps or task management apps on your phone or computer. This will help ensure that you don't forget about important assignments or events. Make those reminders at early intervals such as, one week and 2 days prior to the same due date.

#### UNDERSTAND GRADING CRITERIA

Familiarize yourself with the grading criteria for each course outlined in the syllabus. Understand how grades will be calculated and what is expected of you in terms of participation, attendance, quizzes, exams, and assignments. Many classes will "weigh" some assignments higher or lower to help you determine how you approach them. If weekly quizzes are worth 5% of your grade and your two exams are collectively worth 50% of your grade, then you might decide to spend more time preparing for your exams, and less time on quizzes.

# KNOW YOUR FACULTY OFFICE HOURS AND CONTACT PREFERENCES

If you have any questions or uncertainties about anything related to the course, do not hesitate to seek clarification from your professor, instructor, or teaching assistant (TA). Visiting your faculty can help you build a positive relationship with them and have a better understanding of class concepts. Professors may have specific ways they want to schedule appointments or communicate about your needs – this is typically in your syllabus.

#### CHECK ATTENDANCE POLICIES

Though the University has some standard information regarding attendance and make-up policies, you will likely find class or professor-specific expectations for attending and participating in class. Since these may differ from class-to-class, you will want to understand what these are as you manage times where you need to be away (e.g., a family emergency, brief illness, etc.). Missing class can impact your grade drastically. Should you have absences, work to communicate with your professors to understand how you can make up the work and receive the new material.

#### REGULARLY REVIEW THE SYLLABUS

Periodically review your syllabi throughout the semester to ensure that you're staying on track and meeting all course requirements. Professors may decide to change assignment details or due dates as the class navigates the semester. Update your master calendar as needed and adjust your study plans based on any changes or new information provided.

These tips will help you get started. You will learn your own approach to learning and setting your semester up for success. Best of luck with your studies!

#### PLAN FOR FINAL EXAMS

Visit **go.unc.edu/ExamPolicy** to learn more about policies such as final exam rescheduling due to a medical or mental health concern, an emergency, a religious observance. Also learn how to change an exam due to three or more exams within 24 hours or two exams at the same time.

# 5 TIPS TO GET THE MOST OUT OF OUTLOOK

At Carolina, all students have access to Outlook and Microsoft Office tools such as Word, Excel, OneDrive and Teams.

Since UNC faculty and staff communicate through email, Microsoft Outlook is one of the major tools students use to manage emails and appointments. Here are 5 tips to get the most out of your Microsoft Outlook account:

- Color-code your Outlook Calendar: Right-click on events to categorize by color & name! Start by opening the Settings section, and select General settings to manage Categories. You might decide to assign a color for each class, a set of colors to your student organizations, and others to personal appointments. Create multiple calendars (class schedule, extracurriculars & personal events) and overlay them all or focus on one at a time for some work-life balance.
- Block dedicated study time, self-care breaks: Having a visual calendar in general, helps you see how you are spending your time. Don't forget to block time for studying, taking meals, visiting the Rec Center, and even naps! Whatever your commitments are, this helps you make appropriate time for them.
- **Set up Recurring Events:** Many events in the University environment happen on regular days and times over the course of a semester. To efficiently set-up your calendar, consider making Recurring Events. Go to your Outlook Calendar and double click on the calendar where you want to make your event. You will see a drop-down box where you select the start and end dates and times that defaults "Don't Repeat". Clicking this box allows you to make your appointment show up on a recurring basis. Often you will click "Custom" to set it up to match your schedule.
- Set Up Email Signatures: Save yourself some time by creating a custom email signature. A professional email signature includes your name, university affiliation, major, and any relevant contact information. Go to "Settings" and "Compose and Reply" to set up multiple signatures, making it easy for recipients to identify you.
- Sync Outlook Across Devices: For a busy Tar Heel on the go, you'll likely want to access the same account on your portable devices, including your smartphone. Download the Outlook app (for Apple or Android) on your mobile device or tablet to get started. Log in with your UNC email address and password, then follow the prompts to complete the setup. Sync calendars across devices by going to 'Calendar' then 'Settings' then 'Accounts' and follow the prompts to add.

# **GOAL SETTING**

Set yourself up for success your first semester by goal setting.

## WHAT ARE SMART GOALS?

SMART goals are: specific, measurable, attainable, relevant, and time-bound.

**Specific** goals will help you focus your efforts. For example, a vague goal is "I will get more involved on campus." A specific goal is "I will research Heel Life events happening on campus this month and RSVP to a few."

**Measurable** goals have clear criteria to mark your progress. For example, a measurable goal could be to "Attend a professor's office hours once a month."

It is essential for your goals to be **attainable.** Before setting a goal to write a novel, you may want to set a goal to attend a writing workshop. If you set goals which feel too far out of reach, it may prove difficult for you to commit to the goal in the long term.

**Relevant** goals are realistic but will still push you to grow. Such goals will stretch you but not overwhelm you. For example, an unrealistic goal would be to run a marathon, if you've only ever been jogging. A realistic goal is to grab a friend and train for a shorter 5K race first.

Being **time-based** means that you set a timeline for your goal. Your goal could span the next day, week, year, or decade.

Challenge yourself to develop: 3 goals for this semester 3 goals to accomplish before you graduate 3 goals for life after graduation

Avoid these common goal setting mistakes: Goals that are too big, too many, not specific & not written down
